Comment Text :

--&gt; Office of Civilian Radioactive Waste Management.

1 [ Radioactive materials cannot be placed at Yucca Mountain. Southern Nevada is subject to earthquakes and is in the proximity of a large metropolitan area, Las Vegas.

The DOE has selected an area for dumping that has not been proved to be a a SAFE place for such material.

I have lived in Las Vegas for forty years and I intend to die here. My grand children

and family also have made Clark County their home. I have experienced many earthquakes since living in Las Vegas. ]

Respectfully,  
Rose E. Turner
